## OVERVIEW

St Margaret's School was founded in 1926, commencing a proud tradition of educational excellence. The school has long succeeded in leading young women into futures of success and global citizenship and, from 2009, with the establishment of Berwick Grammar School, began a journey of educating and guiding young men towards similar success.

Located in the leafy south-eastern suburbs of Melbourne, St Margaret's and Berwick Grammar School is an independent non-denominational school providing coeducation from the 3 and 4 year old Early Years to Year 6 and single gender education from Years 7 to 12. This means that St Margaret's and Berwick Grammar School operates as three schools within a unique one school model.

Coeducation provides for a 'family start' in the primary years. Single gender education is provided from Year 7 to 12 with girls at St Margaret's School, Berwick Campus and boys at Berwick Grammar School, Officer Campus. The two campuses are part of the one St Margaret's community and share the same values of **Courage, Curiosity, Character and Respect**, vision and ethos.

The school offers Scholarships on the basis of academic excellence and the student's willingness and ability to contribute to the school community.

The Scholarships being offered in the 2020 program are Academic and Music. Within this Information Booklet you will find details on how to apply for each Scholarship, in addition to frequently asked questions and answers.

Scholarship applications are open to those students attending independent and government schools, with the exception of students who are classified by the Australian Government as 'Full Fee Paying Overseas Students' (FFPOS) holding Visa category 500 visas. These students are not eligible to sit for the Academic Scholarship offered by the School.

The Scholarships will be offered during 2019 and commence in 2020. *Unless otherwise stated*, the Scholarships will be held for the duration of the student's education and are subject to the satisfactory progress of the student. Scholarships will be reviewed biannually or annually.

The school employs the services of an independent testing organisation to conduct the academic testing program.

- **Academic Scholarship** candidates are required to sit an examination on **Saturday 1 December 2018**

*Refer to pages 3, 4, 6, 8, 9, 10 and 13. Frequently asked questions and answers refer to pages 11 and 12.*

- **Music Scholarship** – auditions will be held on **Monday afternoon 29 April 2019**

*Refer to pages 5, 7, 10 and 13. Frequently asked questions and answers refer to pages 11 and 12.*

## 2020 ACADEMIC SCHOLARSHIP

**Online registration closes:** Friday 23 November 2018 – late applications will not be accepted  
**Registration fee:** \$100

**Academic Scholarship Testing Day is Saturday 1 December 2018.**

This Scholarship is available to students entering Years 5 to 11 in 2020.

In 2018, this relates to those students in Years 3 to 9. Candidates who reach a pre-determined level of academic performance in the initial examination, will be short-listed and invited for an interview with the Principal or relevant Head of School.

An Academic Scholarship **may provide up to 50% remission of annual tuition fees** and is offered until the end of Year 12. Consolidated charges and any additional tuition fees (ie music, drama, tennis etc) remain at full charge.

**Only shortlisted candidates** will be required to submit documents supporting their Scholarship application. Please note: This documentation will **only be requested** if the candidate is shortlisted for interview and must include:

- A photocopy of the 2018 semester 1 and end of year school reports
- A photocopy of the most recent NAPLAN test report
- A photocopy of any relevant supporting documents such as awards, certificates and/or photos of trophies
- A copy of the Australian Citizen Certificate (if applicable)
- A copy of the Visa Grant Notice (if applicable)
- A clear and recent photograph of the applicant.

Please note that supporting documents are not returned and that **originals must not be sent**.

The above documentation can either be -

1. **hand delivered** – marked '*Admissions Office, 2020 Academic Scholarship documents enclosed*' - to:

Main Reception  
St Margaret's and Berwick Grammar School  
27-47 Gloucester Avenue  
BERWICK VIC 3806

or

2. **posted to:**

The Admissions Office  
St Margaret's and Berwick Grammar School  
2020 Academic Scholarship  
PO Box 138  
BERWICK VIC 3806

The examination will consist of four components:

- (a) **Abstract Reasoning and Problem Solving** – this test assesses the ability to reason with and analyse information using verbal, mathematical, figural and spatial concepts.
- (b) **Mathematics Achievement and Reasoning** – for primary and junior secondary students these tests assess curriculum-related mathematics tasks and mathematical reasoning tasks. Middle and senior secondary students are assessed on mathematics reasoning tasks. These are different to curriculum-based mathematics and focus on problem-solving skills.
- (c) **Reading Comprehension** – this test assesses the ability to remember, locate, analyse, evaluate, derive and combine text propositions with fiction and non-fiction texts of increasing complexity.
- (d) **Written Expression** – this test assesses students' facility with written language. A stimulus is provided for students to produce a piece of writing in a particular genre (e.g. narrative or argument) depending on the requirements of the school.

Each task is around 40 - 45 minutes in length, except for Written Expression, which is 25 minutes. These tasks measure how a child performs in relation to the cohort sitting the exam.

Students and parents need to be aware that these tests may be demanding and that not all students will complete each test within the time allowed. It is important students do not spend too much time on questions they find too difficult.

Special preparation or coaching is not likely to improve your child's results and past papers are not available. The best preparation is to arrive relaxed and refreshed for the testing day. A good night's sleep is very important.

During the test session your child should:

- Listen carefully to directions
- Read questions carefully and not rush
- Sometimes it is wise to read a question a second time
- Use a process of elimination to choose the best answer
- If a question is too difficult, it is better to leave the answer space blank and come back later if there is time
- Always match the answer number correctly from the test booklet to the answer sheet
- Remember that nobody is expected to answer all questions

Short-listed candidates will be contacted directly by the School and appointments for interview will be scheduled shortly after the testing results have been received by the School. Offers will take place once all interviews have taken place.

A written report with an analysis of each candidate's examination performance will be provided by the organisation conducting the testing. As delivery of these reports is not in the School's control, we expect results to be released to parents by **April 2019**. The report will be forwarded to the postal details provided at the time of the online registration.
